

Green Business Pilot Program

Application to Participate

Tacoma ACTS is a program of the Tacoma-Pierce County Chamber. We are a business alliance aimed at expanding our region's green economy, overseen by a community of vested individuals passionate about the future of the region.

This pilot program aims to establish a sound method for businesses in Pierce County to assess their environmental impact and make changes to reduce their environmental impact in a sustainable, cost-effective manner.

Participating businesses agree to the following:

- Conduct starting and ending carbon footprint measurements as outlined by Tacoma ACTS
- Submit periodic reviews on progress and provide feedback.
- Participate in exit interviews to help staff draft a report on the program and develop recommendations for continuing.

This program and participating businesses will be highlighted on the Tacoma ACTS website, Chamber newsletter and publications, and promoted to local media.

**Email completed application to Jessica Holden at the Chamber:
jessicah@tacomachamber.org.**

Business Name: _____

Address: _____

Primary Contact: _____

Number of FTE: _____

Phone: _____ Email: _____

Is your company a branch, franchise, sole proprietor, etc?

Which of the following industry sectors best categorizes your company?
